## KINGS PRAIRIE.

Verily, verily the Sabbath has become the busiest day in the week for Monett. The base ball club should petition the Legislature to grant them an additional Sunday in the week. It is hot and hard work but the pay is better.

Rev. George Qualls delivered an interesting sermon last Sunday at New Liberty. The subject was the laborer was worthy of his hire. There are parties in every community that like to share in the advantages church and Sunday school give out, but the mighty dollar is too hard to get to waste it on such institutions.

Mr. Thomas and Charley Jackson have good wells, new pumps and an abundance of water.

Joe has had a tough time trying to milk old Spot since the flies have been so bad. He goes around on the other side and gets as far away as possible, but he has quit that now since he has prepared a fly eradicant, and it is all the name implies. It is a solution and is to be applied with a long handle brush. Does it smell? Well you'd think so if you come in sight. It smells so loud you can hear it all over the lot. Some think flies can't smell, but it is a mistake. The first time we applied it to old Spot she turned around and smelled of herself, then lopped her ears and closed her eyes. She thought by the smell that she was dead. Yes she is gentle now, no more kicking, no more switching. She stands and chews her cud while the flies are swarming in the air above. The cook said let us try it at the house, maybe it will drive the flies out. We tried it and it worked like a charm but the family went out along with the flies.

The Annual Conference of the M. P. Church convenes at Billings September 1st.

We understand Mr. Alpha Alexander and family of near Springfield are down on a visit to his uncle, B. S. Stribling and other relatives. A part of his farm lays in the Wilson creek bottom and during the Springfield flood several acres of fine corn was ruined. The water was 6 to 8 feet deep.

Many have stopped the plow in fields waiting for rain.

We notice Billy Brine is complaining of the dry weather over in Lawrence. How could he expect anything else when he helped vote the county dry last spring. The wets say take our own medicine. Old Barry is getting her full share. Corn, pasture, ponds and cisterns all going out one by one.

Many are watching the progress of the series of union meetings that is now going on in Monett. In union there is strength and it is hoped that it may have a visible effect on the moral tone of Monett.

## HARDLY A PROPER SUBJECT

Incident in Life of Joseph Not to Be Discussed in Mixed Company.

James S. Clarkson, surveyor of the port of New York, was discussing with a reporter the wise and rigid rules to prevent smuggling that he has put in force.

The reporter turned the subject to trunk searching. He spoke of the embarrassment that is sometimes caused by a customs officer's too thorough search of young ladies' trunks. But Mr. Clarkson laughed and said:

"Oh, you are over-delicate. You are like the head boy in the Hannibal Sunday school.

"This head boy was called up to the superintendent's desk to receive a prize of a Bible. The prize was for Biblical knowledge. But the superintendent, before bestowing it, said he would ask the boy a few questions that would show his wide religious knowledge well. So he began:

"Tell us, my boy, some incident in the life of Joseph indicative of his scrupulous honesty."

"The lad frowned and answered haughtily:

"Oh, sir, please remember, sir, that there are ladies present."

## HAS WHITE STRAWBERRY.

The production of a white strawberry which bears all the year round, instead of at certain seasons only, is claimed by Hugo H. Lilienthal, a Berkeley horticulturist, who has produced various creations of an unusual kind in the way of fruit and flowers. The white strawberry, his most recent creation, is the result of a long series of experiments with crossing varieties under different conditions. Lilienthal claims to have produced two distinct varieties of berries, which will bear through the full year, making a Christmas berry easily obtainable. One of these is white, the other red, and both are said to be of excellent flavor.—Confectioner and Baker.

## TAKING NO CHANCES.

"Could I have a glass of ice water?" asked the weary broom peddler as he climbed up to the editorial room of the Frog Hollow Enterprise.

"You could not!" drawled the editor as he lighted his traditional corncob.

"And why not?"

"Well, because that don't happen to be any ice water here. Last week I read that ice water stopped the circulation, and I ain't running any chances."—Chicago News.

## FULLY EXCUSED.

Father—Jimmie, why didn't you rake the lawn, as I told you to?

Jimmie—I was going to, father, but the truant officers are around looking for boys under 14 who are working and I was afraid I'd get you into trouble.

## A RARE CREATURE.

They were walking on Second avenue near Fourteenth street. The little old woman was shriveled and pitiful as could be. She came toward them shrinkingly, looked wistfully into their faces and passed on by. The woman took out her purse, extracted a few pennies and, running after the little old woman, handed them to her.

"What made you do that?" asked her companion when she returned to him. "She didn't ask you for money."

"I know," said she, "that was why. She's the first little old woman I ever met over here who didn't."

## TIME TO ADVERTISE.

There's nothing on earth so mysteriously funny as an advertisement. The prime, first and last, and all-the-time object of an advertisement is to draw custom. It is not and never will be, designed for any other purpose. So the merchant waits until the busy season comes and his store is so full of customers that he can't get his hat off, and then he rushes to his printer and goes in for advertising. When the dull season gets along and there is no trade and he wants to sell his goods so bad he can't pay his rent, he stops advertising. That is, some do, but occasionally a level-headed merchant does more of it, and scoops in all the business, while his neighbors are struggling to make ends meet. There are times when you couldn't stop people from buying everything in the store if you planted a cannon behind the door, and that's the time when the advertisement is sent out on its holy mission. It makes light work for advertising, for a chalk sign on the sidewalk could do all that was needed, and a half-holiday six days in a week. Advertisements are built to do hard work, and should be sent out in dull days, when a customer has to be knocked down with hard facts, and kicked insensible with bankrupt reductions, and dragged in with irresistible slaughter of prices, before he will spend a cent. That's the end and aim of advertising and if ever you open a store, don't try to get them to come when they are already sticking out of the windows, but give them your advertisement right between the eyes in a dull season, and you will wax rich and own a fast horse and perhaps be able to smoke a cigar once or twice a year. Write this down where you'll fall all over it every day. The time to draw business is when you want business, and not when you have more business than you can tend to already.—La Rue (O.) News.

## Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and remove this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore most dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual expense to suffer longer without help. We sell, and in confidence recommend
